

PLUTO OPPOSITION SATURN

We will focus on Transiting Pluto Opposition Natal Saturn.

T Pluto is about transformation and in general insists that those influenced by its energies have a close, deep look inside, be honest in this review and make appropriate changes where needed.

Pluto can instigate power struggles and ego disputes, but it calls for change at its deepest levels.

When it comes to an opposition from T Pluto to N Saturn, we can expect that there will be some resistance to the changes taking hold in their lives. Saturn wants to hold on to tradition or situations even when they are outdated. It has great perseverance and determination although Pluto is even more determined and certainly has the insistence that we meet whatever demands are currently required to make the necessary changes.

Change is apparent for those affected. Even if there is resistance, major alternation will be made. Pluto will overpower Saturn. Those influenced by these energies and having any authority may be swayed by others to make the required changes and they can take a leading role in moving ahead.

There will be power struggles, but changes need to be implemented whether this is for the greater good or if they are of a personal nature (as indicated in your chart).

Holding on to the past serves little purpose with Pluto's influence and what was comfortable yesterday may not be that comfortable now. Transformations are in place and others will very likely have an impact on how and where these changes take hold (opposition energy). Perhaps you need to transform things on a personal level, but this will affect others, or perhaps others are pushing for transformations and in a big way. Recognize the resistance to the change and how you're wanting to hold on to what was in place prior to this time. Changes are in store and although they may take some time to unfold, you will eventually begin anew and realize that what took place (which may take up to 2-3 years to unfold) was exactly what was needed.
