

PLUTO SEXTILE NATAL MC

Pluto is known as an agent of transformation and regeneration. Its action is direct, although often quite subtle in the early degrees as it approaches. Pluto's action is complete, in that something comes to an end and something new begins. Pluto is a powerful influential determinant of change and although it may take as long as 2 years to fully understand its actions, you adapt or you will struggle under its influence.

Sextiles are opportunity aspects that often need a push by you for something positive to become apparent and to manifest.

The MC has to do with our career, our objectives in life and our path ahead. It also relates to our status in life and recognition for our efforts.

Pluto can make giant changes with these matters governed by the MC. For those that are comfortable with current circumstances, it may be more difficult to maneuver their way out of these conditions towards what lies ahead. In some cases, if Neptune is involved in the equation and especially if it is in poor aspect association, the road ahead is quite murky and unclear. Because of this, fear might be part of the process, but as we begin moving into our next venture in life, we slowly understand why these changes took place and that the next phase is where we needed to be.

With Pluto sextile natal MC, change and transition are part of the process. Push forward, ride the wave of change and get yourself ready for what's next on life's agenda.
